Join your global NLP community at the 2022 NLP International Conference

Each year the conference surpasses expectations and delivers a platform for you to continue your NLP journey. The virtual platform empowers more people to connect globally. Whatever stage you are at, there is something for you at the conference: connect with like-minded and passionate NLP advocates, learn from NLP experts and innovators, immerse yourself in new opportunities, approaches, ideas and developments, take your personal development to the next level and be uplifted, connected and inspired.

Friday Masterclass will be presented by

Tim and Kris Hallbom

Friday 20th May 2022 at the NLP International Conference

Dynamic Spin Release™ Program

During this practical skill-based training, you'll learn how to release your negative thought patterns, limiting beliefs and physical pain in as little as 10 minutes.

Created by Tim and Kris Hallbom, Dynamic Spin Release™ is a powerful set of processes that allows users to release their negative thoughts and emotions, limiting beliefs, and physical pain in a very short time.

- Easily shift negative thought patterns and limiting beliefs in yourself and others.
- Relieve the pain and discomfort of physical ailments such as headaches, colds or chronic injuries.
- Transform the negative self-talk that keeps you from being your best...
- Maintain a positive outlook.
- Release the unconscious stories and limiting beliefs that keep you from having what you want.
- Understand the role that metaphors, memes and archetypes play in transforming your thoughts, feelings and beliefs.

Kris Hallbom is an internationally recognized trainer, author and executive coach. She is the co-founder of the NLP Coaching Institute of California, and has been actively working in the field of NLP for over 30 years. She is also the co-creator of the WealthyMind™ Program, which has been taught to live audiences in over 20 countries.

Tim Hallbom is an internationally known trainer and developer in the fields of coaching, hypnotherapy, and NLP. He is the co-author of the books *Beliefs: Pathways to Health and Well-being*, *NLP: The New Technology of Achievement and Innovations in NLP*, as well as the author of a number of articles about management, ethics, and change.
